

Eagle Scout Service Project Proposal Reviews

Please note that Eagle Scout Service Project Proposal Reviews will take place through the summer months as scheduled below even though District Roundtables may not be meeting then.

Eagle Scout Service Project Proposal Reviews for project approvals are conducted on the second Thursday of each month at the same location as District Roundtables. Conducting reviews at the District level achieves the following:

- District meeting locations are more conveniently located within each District.
- Meeting times will better accommodate a Scout's after school activities.
- Project approvals take place at the district level and not at the council level.

A Scout or their representative must present their Eagle Scout Service Project Proposal to the District Review Committee at the start of the meeting. Proposals will not remain in the custody of the District Review Committee. The Scout or their representative must take the proposal home before the meeting is over. Project Proposals will be reviewed in order, as follows:

1. Proposals from a Scout who sends an email by the last day of the prior month indicating that the Scout will be present (and the Scout is present with their Proposal) will be reviewed first.
2. Proposals from Scouts who arrive with their proposals without prior email notification will be reviewed next.
3. Proposals presented by a representative when the Scout is not present will be reviewed last.
